

## List of 15 simplification proposals

### ***Better specify and/or clarify what is required from farmers and national administration***

- (EFA) Merging of certain strips and streamline associated conditions 1
- (EFA) Merging of certain landscape features and streamline associated conditions 2

### ***Remove burdensome technical requirements without lowering the environmental benefits***

- (EFA) Allowing mixture of seeds for Nitrogen Fixing Crops (NFC) 3
- (EFA) Deletion of the obligation for geographical criterion where (NFC) can be established 4
- (EFA) Deletion of deadline for sowing catch crops or green cover 5
- (EFA) Adjustment of the list of species for short rotation coppice 6
- (EFA) More flexibility for the qualification of some EFA elements especially landscape features which are above the set maximum 7
- (EFA) More flexibility for the qualification of some EFA elements especially as regards landscape features adjacent to the agricultural parcel 8

### ***Providing more flexibility or alternative where this increases the environmental and climate benefit of the greening***

- (EFA) Adjustment of the list of species for under sowing 9
- (CD) Possible differentiation for the period of crop diversification 10
- ***(Additional harmonisation of some requirements and conditions)***
- (CD) Better consistency between equivalence schemes (RDP or certification schemes) for green covers and catch crops 11
- (EFA) Better specification as regards land lying fallow (LLF) 12
- (EFA) Common minimum duration for catch crops and green cover 13
- (EFA) Better consistency between equivalent and standard practices as regards weighting factors 14
- (EFA)° Ban of use of pesticides on productive EFA area 15
