Bike to Work

Opiniestukken dit najaar

- Een gitzwarte Strapdag.
- 335 miljoen voor fietsinvesteringen in 2021, goed nieuws toch?
- Nieuw federaal regeerakkoord stimuleert de fiets, maar zwijgt over kilometerheffing en salariswagens.
- Stijgende agressie tegen fietsers.

A photograph of a busy city street at dusk. A large group of cyclists is riding across the frame from left to right. They are on various types of bicycles, including road bikes and commuter bikes. Some are carrying bags or baskets. In the background, there are multi-story buildings with lit windows, streetlights, and a few cars. A red semi-transparent banner is overlaid on the top half of the image, containing white text. The overall scene suggests a high volume of cycling in an urban environment.

1 fietsdode om de 5 dagen
Is dat het nieuwe normaal?
